The following is an examiner's statement of reasons for allowance:

The only rejection that relate to the pending claims are the rejections based on (1) Ohno et al. and the (2) the EP reference.

In view of applicants amendments to the pH of the composition, the rejection based on Ohno et al is withdrawn because pH is outside (4.5 to 7) the claimed pH (4 or less).

The rejection based on the EP reference is withdrawn because the EP reference does not appreciate the minimization of the Cu content in the slurry. The instant specification shows that the Cu content in the slurry is critical for reducing the surface defects of the substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A Marcheschi whose telephone number is (571) 272-1374. The examiner can normally be reached on M-F (8:00-5:30) First Friday Off.
